

Real Estate Photography General Terms & Conditions

- 1) If the photographer cannot adequately shoot the property once they arrive due to reasons beyond our control (such as, but not limited to a) unable to gain access to the property b) excessive clutter and mess c) unrestrained animals) you will be charged the full fee of the shoot. Please review the Tour Prep page and make certain arrangements have been made to access the property prior to scheduling a shoot.
- 2) It is the Realtor and/or home owner's responsibility to have the home in photo ready condition prior to the photographer arriving. - 4) Please make any special requests known to the photographer before the shoot begins, including specific shots, angles and the like. Otherwise the photographer will shoot the home based on experience, the home's condition, lighting and several other factors to get the best possible shots. That sometimes means making compromises when it is necessary to shoot around things or compensate for the angle of the sun.
- 5) Turnaround time is 48 hours. Although you may get your photos back in less time we cannot guarantee it. If you have a situation that requires a quicker turn around time please inquire about options for express service at an additional fee.
- 6) Payment is due at the time of the shoot by check or credit card or for your convenience you may pay securely online with a credit card ahead of time.
- 7) Be sure to review our weather policy just in case.
